SUMMARY

Cum Laude IT graduate adept in web and mobile development, UI/UX design, and software testing. Leveraged capstone success in delivering user-focused digital solutions. Proficient in HTML, CSS, JavaScript, PHP, MySQL, API integration, and database management, with strong skills in manual testing and project management.

EDUCATION

Bachelor of Science in Information Technology

Specialized in Web and Mobile Application in Tarlac State University

2022 - 2026

Cum Laude (GWA: 1.583)

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, PHP, Java, TypeScript, Dart, SQL

Web & Mobile Technologies: HTML, CSS, React, Node.js, Flutter, Tailwind CSS

Database & APIs: MySQL, REST APIs, Postman

Tools: Visual Studio Code, XAMPP, Git/GitHub, Android Studio, Figma, Canva, PowerShell, Cisco Packet Tracer, Microsoft Office Suite, ChatGPT, Claude AI, Codex, Blackbox AI

Soft Skills: Communication (English/Filipino), Problem-Solving, Adaptability, Team Collaboration, Time Management

Professional Skills: Workflow Optimization, Client Collaboration, Project Management, Technical Documentation, Quality Assurance, AI Prompting

INTERNSHIP EXPERIENCE

Intern - Administrative & Technical Support | February - May 2026

Tarlac State University - Office of Human Resource Development and Management

- Provided technical troubleshooting for hardware/software issues, ensuring uninterrupted office operations.
- Processed structured data in Excel using formulas and automation, reducing manual workload by 20%.
- Digitized 500+ HR records, improving accessibility and accuracy for HR reporting and audits.
- Created bar chart visualizations to support decision-making in HR reports to make faster, data-driven decisions.
- Handled follow-up calls with departments to ensure timely HR documentation.

CAPSTONE PROJECT

TrueHue: Color Identification and Assistance App for Colorblind Individuals

A color identification and assistance application for individuals with color vision deficiency. The application was developed as a mobile-based system supported by a web-based landing page for distribution.

- Co-developed the TrueHue mobile app and landing page, contributing to requirements, and led the technical documentation, feature development, testing, and evaluation.
- Designed and implemented features: AR live view, photo color detection, recolorization, voice feedback, spot color filtering, and integrated Farnsworth D-15 test.
- Applied K-Nearest Neighbors algorithm for real-time color classification.
- Validated accuracy with IT experts, eye specialists, and end-users.
- Achieved high evaluation scores: Interaction Capability (4.53), User Satisfaction (4.34), Functional Suitability (4.60), Performance Efficiency (4.67).
- Website component scored 4.67 (functional suitability) and 5.00 (performance efficiency).

CERTIFICATIONS

- **Cisco Networking Academy** (Introduction to IoT, Introduction to Networks, CCNA, Introduction to IoT and Digital Transformation, Prompt Like an Engineer)
- **Coursera** (Google Advanced Data Analytics—in progress)
- **DICT** (Digital Citizenship Training, Mastering Prompt Engineering in Generative AI, AI-Powered VA: Future-Proof Your Skills)
- **UPITDC** (Introduction to IT Acquisition and Practical Process Mapping and RACI Charts with Open-Source Tools, AI Essentials: Theories and Practices)

LEADERSHIP EXPERIENCE

- Board of Directors, College of Computer Studies Student Council (2023–2024)
- Executive Assistant, College of Computer Studies Student Council (2024–2025)
- Member, Programmers' Den (2024–2026)
- Member, Student Society in Information Technology Education (2024–2026)
- Apprentice, Student Society in Information Technology Education (2025–2026)
